4. Division means equal sharing _____
5. In 3×4 and 4×3 , answer will be the same _____
6. There are 60 minutes in an hour _____

SECTION - B

Q3. Choose the correct option: (8)

1. 72, 19, 94, 68, 76, 55

The greatest number in the above series is

(a) 76 (b) 19 (c) 55 (d) 94

2. Medicine in a bottle is measured in

(a) L (b) kg (c) m (d) ml

3. $13 \div 2 = 6$, the remainder here is

(a) 3 (b) 5 (c) 1 (d) 2

4. One dog has 4 legs, so 7 dogs will have _____ legs

(a) 21 (b) 28 (c) 32 (d) 24

5. _____ = 7 tens and 9 ones
 (b) Ninety seven (b) seventy seven (c) seventy (d) seventy nine
6. Number of boys in class is 24. The number is
 (a) Even (b) odd (c) has no value (d) first
7. 9:45 can also be written as
 (a) Half past 9 (b) quarter past 9
 (c) quarter to 10 (d) quarter past 10
8. Republic day is celebrated in the month of
 (a) February (b) August (c) January (d) December

Q4: Match the following: (6)

- | | |
|----------------------------|----------------------|
| 1) Year | a) 6 is the quotient |
| 2) 500g + 500g | b) cm |
| 3) $60 \div 10 = 6$ | c) 1 kg |
| 4) Length of a pencil | d) 12 months |
| 5) 12 O' clock | e) 40 |
| 6) Place value of 4 in 247 | f) 12 : 00 |

SECTION - C

Q5. (a) If you count backward from 79, which 4 numbers will come just before it? (4)

(b) Tick ($\sqrt{}$) the odd numbers and cross out (\times) the even numbers.

1 35 6 80

Q6. Circle the second and fifth object. (4)

- (a)     
- (b)     

Q7. Complete the series :- (2)

_____, Monday, _____, Wednesday, _____,
 _____, Saturday.

- a) 33 _____
 b) 47 _____
 c) 12 _____
 d) 64 _____

SECTION - D

Q12. Solve the following using number line.

(12)

A) $4 \times 6 =$

B) $6 \times 2 =$

C) $16 \div 4 =$

D) $21 \div 3 =$

Q13. Solve the following story sums:-
